"THE HOME OF FLOWERS"

20 to 24 West Fifth Street

ST. PAUL, MINN.

EASTER SUNDAY, MARCH 31, 1918

We offer you herein the best of everything in Cut Flowers and Blooming and Decorative Plants for Easter. We have grown these for our retail trade and they will be just right for the occasion. If you do not know what to order, tell us where you want to use it and what you wish to pay, and we will select you good value for your money, pack carefully and ship promptly.

FLOWERS DELIVERED BY TELEGRAPH ANYWHERE—AT ANY TIME

By mutual arrangement with the leading florists in the country we can on short notice have flowers delivered at any address or on board steamers when about to sail. This arrangement has proven very satisfactory and our customers can rely on their orders always being filled in a prompt and courteous manner.

Send your order just as soon as possible. This will assist us in shipping it promptly and assure you of getting what you want before our selection is broken.

At the prices quoted we deliver any place in the Twin Cities free of charge where the order amounts to \$1.50 or more.

HOW TO SHIP

All flowers shipped by express at purchaser's expense. We do not recommend Parcel Post shipments and will not be responsible for them but will use every possible precaution in packing. Parcel Post shipments should be "insured or sent special delivery." We cannot ship plants by parcel post.

Orders for less than \$1.00 are not solicited, as the expense of packing is too great.

As plant orders are always packed and shipped from our greenhouses, we cannot combine them with cut flower shipments, which are always made from our city store.

TELEGRAPH CODE

Orders by telegraph or telephone. When flowers, etc., are wanted the same day or next, it is best to telegraph or telephone. The following Cipher Code will be found useful and saves cost of telegrams:

Prices effective March 25th to May 1st, 1918. Note reduction in Carnation prices after April 10th

EASTER LILIES.

The finest flowers grown. Per dozen buds, \$4.00. Grown with strong, stiff stems and flowers of firm texture that will not bruise easily, but will stand shipping well. There may be cheaper ones offered, but we do not grow that kind.

Where it is not desirable to ship plants we can cut full length stalks with as many open blooms as possible. Placed in water on arrival they will last a long time. Stalks have 4 to 7 buds each. The buds open one at a time, the first one on a stalk being withered and gone when the last one opens. We cannot ship stalks with all the buds open at the same time.

Prices, \$1.50, \$2.00, \$2.50, \$3.00, \$4.00 and \$5.00 per pot.

HYDRANGEAS

PRIMULA OBCONICA.

A fine stock of this showy plant in full bloom. Large plants in 8 inch pans, \$1.50 and \$2.00 each.

War conditions made it impossible to import any plants from Belgium last fall, consequently there are no Azaleas, Deutzias, Spiraeas and Rhododendrons to offer this Easter. In their place we recommend Hydrangeas and the roses which we offer believing they will give even greater satisfaction than the Belgium plants.

Don't forget the sick when making Easter gifts.

The Baby Rambler.

ROSES

Our stock comprises all the newest and latest importations from Europe as well as the older sorts of merit. They are all beautiful and desirable and when through blooming can be planted outside and will blossom again during the season. Some of them are hardy and will live during the winter if well protected.

BABY RAMBLERS

All roses of this type form compact, bushy heads well filled with clusters of bloom which last a long time. The plants are dwarf in growth (ranging from 15 to 20 inches in height) are stocky and will bloom incessantly the entire summer. These varieties are also very fine for planting in beds in the open.

MAD. N. LEVAVASSEUR.

This variety comes from France and bears the name of the wife of a noted French plantsman. It was introduced a dozen years or so ago and immediately sprang into great favor. It is the original or first Baby Rambler and has never been surpassed by any of the later introductions.

In color a bright glowing crimson; a very free bloomer; compact in growth and equally good for massing in beds on the lawn or for house blooming. When warm weather comes, it can be planted outside and the summer bloom alone is well worth the price of the plant. Each, \$1.50, \$2.00, \$2.50, \$3.00, \$4.00 and \$5.00.
